- Strengthened analytical thinking and quantitative problem-solving.

## Experience and Projects

### SOCIETE GENERALE, Project Finance/ Structured Finance

Paris, France

#### Internship

Feb 2025 - Aug 2025

- Supported the origination and structuring of project finance transactions, including prepayment and pre-export finance structures, across advisory, arranging, and lending activities.
- Built, reviewed, and stress-tested financial models to assess project bankability, conducted scenario analyses, and ensured alignment with technical and commercial assumptions.
- Performed market and country risk reviews, alongside financial analysis, to support credit risk assessments and inform structuring decisions.
- Drafted credit applications and internal memoranda, with contributions to risk assessment including ESG and regulatory considerations.
- Coordinated due diligence and compliance processes (technical, legal, ESG, KYC), ensuring alignment with internal assumptions.
- Developed marketing materials and client presentations, effectively articulating transaction value propositions and enhancing the team's competitive positioning in key deals.

### WORLD BANK, Consultant

Washington D.C., United states

#### Internship

Aug 2023 - July 2024

- Developed and refined an Excel-based model to evaluate land use regulations' impact on housing and public transport ridership, challenging existing Transit-Oriented Development (TOD) literature; co-authored a paper presented at two major conferences
- Conducted risk analysis for World Bank projects in MENA conflict zones, evaluating geopolitical and financial uncertainties.
- Conducted Paris alignment assessments for new projects, aligning with World Bank climate change guidelines.
- Participated in field missions; contributing to the establishment of a BRT unit and overseeing financial aspects of road rehabilitation projects.
- Conducted technical audits for road development projects, focusing on adherence to technical standards and financial viability.
- Analyzed and benchmarked transport and logistics strategies of MENA countries, emphasizing strategic alignment and progress tracking.
- Drafted diverse project documentation, including trust fund applications, investment memos for governments, and legal agreements.

### MERIDIAM, Academic project

Paris, France

Evaluating non-financial risks for an investment fund

Dec 2022 - June 2023

- Acquired knowledge of the internal methodology for non-financial risk assessment in infrastructure projects.
- Leveraged academic research to deepen understanding of prevailing risk evaluation practices.
- Recommended strategic enhancements to the evaluation methodology, tailored for diverse asset types.

### Research project

Paris, France

Photovoltaic development and financing project

Jan 2022 - July 2022

- Analyzed the development of two photovoltaic projects, and conducted in-depth interviews with key stakeholders to identify success factors, pitfalls, and best practices in such projects.

### INJAZ AL MAGHRIB

Meknès, Morocco

Creation of a Junior Company through Injaz Al Maghrib program

Apr 2020 - Sept 2020

- Won the first regional prize and the UNICEF prize for the greatest social impact in Morocco, as well as recognition as the best Junior Company on the regional level (2019), honing skills in innovation and team collaboration.

## Extra-curricular activities

### International student volunteer

Paris

Dévelop'Ponts : school's solidarity organization

Feb 2022 - June 2023

- Initiated and collaborated on projects with E&S focus, aiming to create an inclusive environment for international students.
- Organized events and activities, enhancing international student involvement in the organization's mission.
