Dynamic Project Manager with more than three years of specialized experience in smart cities and digital infrastructure projects. Proven expertise in coordinating complex digital transformation initiatives and leading transversal teams across multiple departments. Skilled in technology integration, stakeholder engagement, change management, and maintaining IT/cybersecurity standards. Passionate about driving innovation and delivering sustainable solutions that enhance urban living and organizational efficiency.

## EXPERIENCE

---

### IT Team Leader – Parking Management Systems

Sep.2024 – Present

Q-Park – France | Issy-les-Moulineaux, France

Lead and coordinate technical project teams, ensuring strategic alignment with budget constraints and delivery timelines. Oversee deployment of comprehensive solutions while maintaining excellence in IT infrastructure and cybersecurity standards. Drive continuous improvement initiatives and foster collaborative environments to optimize project success rates.

- **Manage cross-functional project teams of 3 members** to deliver technical solutions on time and within budget, demonstrating strong leadership in complex project environments.
- **Oversee end-to-end deployment** of digital solutions across **over 400 car parks**, ensuring seamless integration and adherence to organizational standards and requirements.
- **Conduct comprehensive change management initiatives** to ensure smooth transition and adoption of new digital solutions across organizational infrastructure.
- **Ensure strategic alignment** between technical project objectives and organizational goals, contributing to overall business success and operational excellence.

### Project Manager – Smart Cities Development

Oct. 2022 – Sep.2024

EQUANS - BOUYGUES SA | Guyancourt, France

Oversee and coordinate activities between more than **5 regional business managers**, managing intertwining deliverable deadlines and timelines. Facilitate communication among senior leadership and major stakeholders. Provide strategic guidance for productivity and daily management of large-scale programs and projects.

- Head a team of over **20 professionals** to respond to global performance public market tenders concerning IoT and supervision platforms.
- Manage projects with an average budget of **€50 million**, highlighting adept leadership in high-stakes and financially significant initiatives.
- Steer a portfolio of over **20 benchmarks/year**, successfully identifying groundbreaking IoT use cases in the domains of environmental sustainability, mobility, and energy consumption, highlighting a proactive approach to **innovation**.
- Use **lessons learned** from previous projects to implement project management best practices, resulting in **a 20% reduction** in project costs and **a 30% increase** in project success rate.
- Pioneer **cross-departmental representation** at **5 prestigious events per year** such as Vivatech, Google Learning Expedition, and Smart City World Expo... elevating organizational visibility and forging impactful industry alliances to drive strategic growth.

### Project Management Graduate Program

Oct. 2021 - Sep. 2022

EQUANS - BOUYGUES SA | Guyancourt, France (*A one year program with 3 rotations*)

#### 3rd rotation: Project Manager at Facility Management Department | Paris, France (Jun. 22 – Sept. 22)

- Implemented a predictive maintenance system, using Power BI for major projects such as the '**Samaritaine Shopping Mall**', '**Bourse de Commerce Museum**' and '**LVMH Headquarters**'.
- Reduced maintenance costs by **15%** by implementing effective preventive maintenance schedules.

## **2nd rotation: Project Manager at Axione Fiber Roll-out Department | Nantes, France (Feb. 22 – May. 22)**

- Orchestrated the management of **more than 12 subcontractors** to successfully deliver and oversee the deployment of **50,000 FTTH connections**, demonstrating effective leadership and project execution in the telecommunications sector.
- Created new business processes and standards that **decreased project-planning time by 25%**.
- Utilized **Kanban project management** to create complex schedules based on team and vendor forecasted availability.

## **1st rotation: Project Manager at Equinix Datacenters Department | Paris, France (Oct. 21 – Jan. 22)**

- Executed project tracking by developing comprehensive status reports and time management summaries; effectively measured project members' commitment progress, facilitating timely completion and driving successful outcomes.
- Directed a team of over **25 technicians** across diverse cores, including access control, fire safety systems, and DALI lighting, demonstrating adept leadership in **overseeing multiple technical domains**.
- Kept stakeholders **engaged and informed** for the entire lifecycle of the project, maintaining positive client relationships and team morale.

## **EDUCATION**

---
